Dr. William Steele
Tobacco Institute Testing Laboratory
54 Wisconsin Avenue
Chevy Chase, Maryland 20015

Dear Bill:

We sent to your attention today via insured parcel post, two cartons each of the test and control cigarettes we prepared for the Chemosol test. These cigarettes are coded 27 and 64 and have a mark 30 mm. from the butt end. We were requested to send you these cigarettes for confirmatory tests for nicotine and tar. It is my understanding that Mr. Topol has talked to you about these cigarettes. When you obtain your results, please provide Covington and Burling with your answers. As a matter of interest, I would appreciate a copy of the answers also. You will recall that these cigarettes are to be smoked to a 30 mm. butt as opposed to a 23 mm. butt. If we can provide additional information, please let me know.

Best regards,

Bob Cundiff
